- Assignments and Final Project

Introduction

- We work with **Gama Platform** for simulating multi-agent environments.
- The **tutorial videos** will be uploaded **weekly**.
 - On canvas, under “Tutorial Sessions” module.
- These videos would be enough for doing the assignments.
 - For more detailed explanation, you can read the documents [here](#).
- We do not have any other tutorial session.

Assignments

- We will have three assignments and one final project.
- The description of the assignments can be found under “Assignment” Modules.
